REPORTING REQUIREMENTS

Reporting on Pūtea projects ensures that there is accountability for the funds and gives recipients the opportunity to share what they have learnt with the Ngāti Mutunga Iwi.

To comply with the Pūtea requirements, all recipients are required to complete project report until the completion of their project. Projects are to be completed within one year of the closing date, unless prior negotiated.

A standard reporting form, with the dates for reporting, is provided to each recipient when their project is approved for funding. The form is designed to be easy to complete giving a clear picture of project progress and expenditure.

When the project is completed the final project report provides an opportunity for those running the project to outline what has been learnt in the project. Those parts of the report that will be of interest to Ngāti Mutunga Iwi may be published on the website.
